

## MUD PIES AT CAMP

The Koorles' hut in Sherbrooke forest is starting to take shape.

Pictured above, camp leader Lin Onus takes a break from cutting and laying shingles on the roof.

Students from La-trobe University took on the wall with the enthusiasm of kindergarten children playing with mud pies.

They had to mix up sifted clay with water then plaster it between the saplings which make up the walls. Once this is finished a coat of oil will be painted over the whole job.

Turn to page six for another story and picture about the land rights camp.
